

## STEM Kits

\$20 (1 activity) | \$55 (3 activities) | \$75 (5 activities)

The STEM Kits include hand-on, learning activities for students. Each kit contains the activities, a USB flash drive and keepsake robot tag. Students can access materials in each activity packet in print, via the USB flash drive, or online at [www.stemtruck.org/STEMBox](http://www.stemtruck.org/STEMBox). Video lessons are included on the USB flash drive and online.

### Activities:

- Electronics Activity & Materials – Blinking Light Circuit
- Engineering Activity & Materials – Design & Create
- Chemistry Activity & Materials – Investigating pH Levels or Fun with Periodic Table Elements
- Chemistry Activity & Materials – Solving a Mystery using Chemical Reactions
- Chemistry Activity & Materials – Fun with Periodic Table Elements
- Computer Science Activity & Materials – Writing a Program
